Action Taken Report 2021-22

1. Bachelor of Arts (BA) Students

This report details the actions taken in response to the suggestions provided by BA students in their student survey.

Implemented Actions:

- **Improved Online Resources:** The university library has expanded its online database subscriptions, providing students with access to a wider range of academic journals and e-books relevant to BA programs.
- **Enhanced Academic Advising:** The advising team has received additional training in career counseling, allowing them to provide more targeted guidance to BA students on career paths and post-graduation opportunities.
- **Increased Support for Writing Skills:** A new writing center specifically for BA students has been established, offering workshops and individual consultations on academic writing skills and research methodologies.

Outcomes:

- We anticipate that these initiatives will lead to improved research capabilities, increased career preparedness, and enhanced writing skills among BA students.

2. Bachelor of Science (BSc) Students

This report outlines the university's response to the suggestions provided by BSc students in the recent survey.

Implemented Actions:

- **Modernized Laboratory Equipment:** The science department has secured funding to upgrade laboratory equipment, ensuring that BSc students have access to cutting-edge technology for their practical studies.
- **Industry Guest Speaker Series:** A new initiative has been launched to host guest speakers from leading science and technology companies. This will provide BSc students with valuable insights into industry trends and career opportunities.
- **Mentorship Program with Alumni:** A mentorship program has been established to connect BSc students with successful alumni in their chosen fields. This will provide students with guidance and support as they navigate their academic and professional careers.

Outcomes:

- These actions aim to enhance the practical skills and career preparation of BSc students, fostering a stronger connection between academic study and real-world applications.

3. Master of Arts (MA) Students

This report summarizes the university's response to the suggestions raised by MA students in the recent student survey.

Implemented Actions:

- **Expanded Research Opportunities:** The university has allocated new funding for research grants specifically dedicated to MA programs. This will provide students with greater financial support to pursue their research interests.
- **Specialized Workshops and Seminars:** A series of specialized workshops and seminars will be offered, focusing on advanced research methodologies and publication strategies relevant to specific MA disciplines.
- **Enhanced Interdisciplinary Collaboration:** The university is facilitating greater collaboration between various MA programs. This will allow students to benefit from interdisciplinary perspectives and engage in cross-disciplinary research projects.

Outcomes:

- These initiatives aim to strengthen the research foundation of MA students, equip them with advanced research skills, and provide them with opportunities for collaboration and knowledge exchange.

4. Master of Science (MSc) Students

This report details the actions taken in response to the feedback provided by MSc students in the recent survey.

Implemented Actions:

- **Industry Internship Program:** A new internship program has been launched, placing MSc students in leading companies within their respective fields of study. This will provide valuable practical experience and enhance their employability after graduation.
- **Dedicated Career Development Resources:** A dedicated online career portal for MSc students has been created, offering resources on resume writing, interview preparation, and job search strategies.
- **Industry-Specific Workshops:** Workshops will be conducted in collaboration with industry partners, focusing on specific skill sets and knowledge required for successful careers in relevant MSc disciplines.

Outcomes:

- These actions aim to equip MSc students with the necessary skills and experience to transition smoothly into successful careers within their chosen science and technology fields.
